

# overflow

## VCONVENE™

### Get Ideas Adopted Virtually

When circumstances limit in-person gatherings, Overflow helps accelerate the adoption of ideas by convening virtually to engage participants and elevate the attendee experience.

#### Customizable Solutions

##### Live Streamed General Sessions

Corporate leaders and keynote speakers can still deliver real-time news on the main stage. They are live-streamed with attendee interaction through a dynamic, mobile meeting application.

##### Mobile App

For meetings of any size, this is the source for all information and attendee engagement through personalized meeting agendas, surveys, Q&A, gaming, word clouds and session ratings.

##### Dynamic Workshop Sessions

Attendees move to their personalized breakout sessions with planned breaks before and after the live or self-paced pre-recorded sessions. Healthy Huddles are offered to get attendees moving through yoga and group exercises.

##### Live Storyboarding

Our illustrators can join your meeting to create a storyboard that visually depicts the stories being told. This becomes a keepsake and a tool for critical messages to be remembered.

##### Interactive Exhibit Halls

Vendors can still be part of your meeting through a virtual hall where attendees click on a vendor booth to learn through video then self-select when they want to speak with the vendor.

##### Pre-Meeting Prep

Email is NOT the tool to deliver pre-meeting assignments or post-meeting learning. Instead, we help you create and deliver the materials based on what needs to be accomplished.

##### Post-Meeting Learning

Sessions can be recorded and edited for efficient review and reinforcement post meeting.

#### VConvene Advantages

- 01 Stay Connected**  
For people to care you must first show why you care. This starts with making time then structuring content into a story framework that appeals to hearts and minds.
- 02 Guide Messaging**  
Stories are being told whether you are guiding them or not. We help you lead the narrative through story campaigns that enable consistency and evolution over time.
- 03 Deliver Efficiently**  
Whether attendees are at home or among colleagues at various office locations, we help you minimize downtime and avoid the costs associated with travel.
- 04 Engage Globally**  
Create joint sessions at the times of day when employees around the globe can be together.

#### More About Overflow

[Get Ideas Adopted](#)

Overflow helps accelerate the adoption of ideas through story structure, multimedia production, and live meetings and events to launch new strategies, propel movements and shift perceptions.

**Story Lab** - Strategy | Messaging | Movements

**Meeting & Incentives** – Meeting and Events | Incentive Travel

**VConvene** – Virtual Meetings and Events | Blended Learning
